

Poultry Industry Council

Poultry Producer Updates

Since 2009 PIC in partnership with OMAFRA has been delivering Producer Update sessions to keep Ontario poultry producers and industry representatives informed on relevant topics and emerging issues facing our sector.

This year we are taking a pandemic approach to delivering our updates moving from regionally focused, in person events to virtual based issues focused sessions.

Topics include:

- ♦ **Poultry Veterinary Health Update**
- ♦ **Understanding Pullet Vaccine Schedules**
- ♦ **Poultry Welfare Training**
- ♦ **Air Quality**
- ♦ **Salmonella Control**
- ♦ **Clean & Disinfection for Maximum Flock Health**

Been missing people? Our sessions feature breakout rooms where you can chat and catch up with colleagues and presenters!

NEW THIS YEAR, BONUS MATERIAL!

Every registration allows you access to pre-recorded material: OMAFRA update with poultry specialist Al Dam, the OAHN report presented by Emily Martin, and a detailed presentation on dilated proventriculus from Dr. Channele Taylor of Cargill.

Animal Welfare

December 9th, 2020

Animal welfare is a broad and important topic so we're bringing you a variety of speakers that will help maximize animal welfare on the farm.

Barns: Environment for Birds & Staff

February 10th, 2021

Time spent in the barn can impact your health, and the right environment for the flock ensures their good health too!

Business of Birds

February 24th, 2021

The business side of birds is all about proactively managing and communicating effectively. Get set for success.

All live sessions run from
1:00 — 4:30 pm on Zoom

Register online at
www.poultryindustrycouncil.ca

Registration is \$25 each, or
\$50 for all three

Our educational sessions are subject to change. The most recent agenda with speakers is available on our website.
