Grower Login Instructions

Welcome
This guide will help you access your Fieldtrace 2.0 account for the first time. Please follow the steps below in order. Screenshots are provided throughout the document for reference.
Need Help? If you experience any issues during setup, please contact your Field Marketer (FM) for assistance.

STEP 1: REQUEST YOUR ACCOUNT SETUP

Purpose: Your account must be created before you can access Fieldtrace 2.0.
Contact your Field Marketer (FM) to request access to the new platform.
Provide the email address you would like to use for login and wait for confirmation email that your account has been created.

STEP 2: SET UP YOUR USER CREDENTIALS

Purpose: Create password
1) Open the account activation email that you have received on your email from *webmaster@agrian.com*
Please check your junk folder if you haven't received it. See example below.
The password reset link sent to your email is valid for 24 hours only. If the link has expired, please contact your Field Marketer (FM) for assistance and further instructions on reactivating your account.

2) Click on the activation link.
Create and confirm your password. See example below.

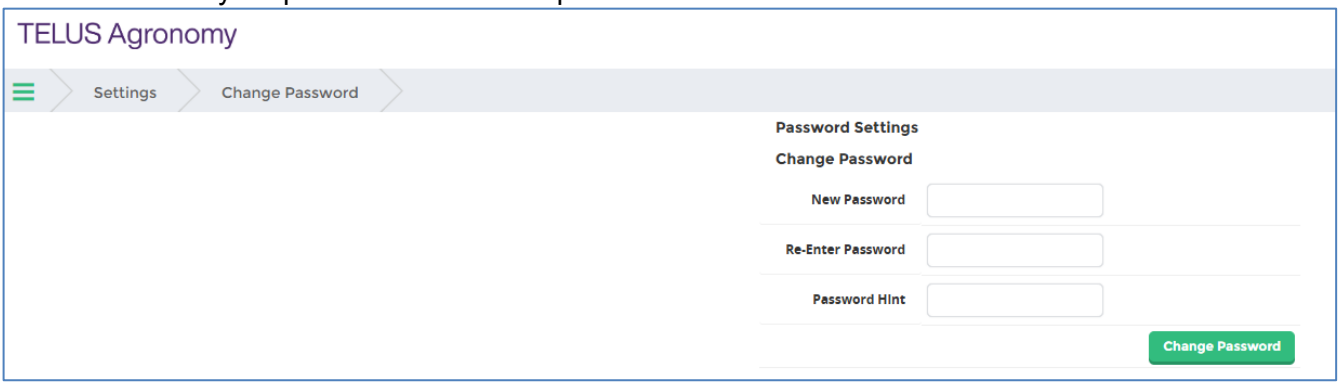

Image 2.2: Password confirmation

STEP 3: LOG IN TO YOUR ACCOUNT

Purpose: Login to your account with username and password
Navigate to the TELUS Agronomy login page: [TELUS Agronomy]

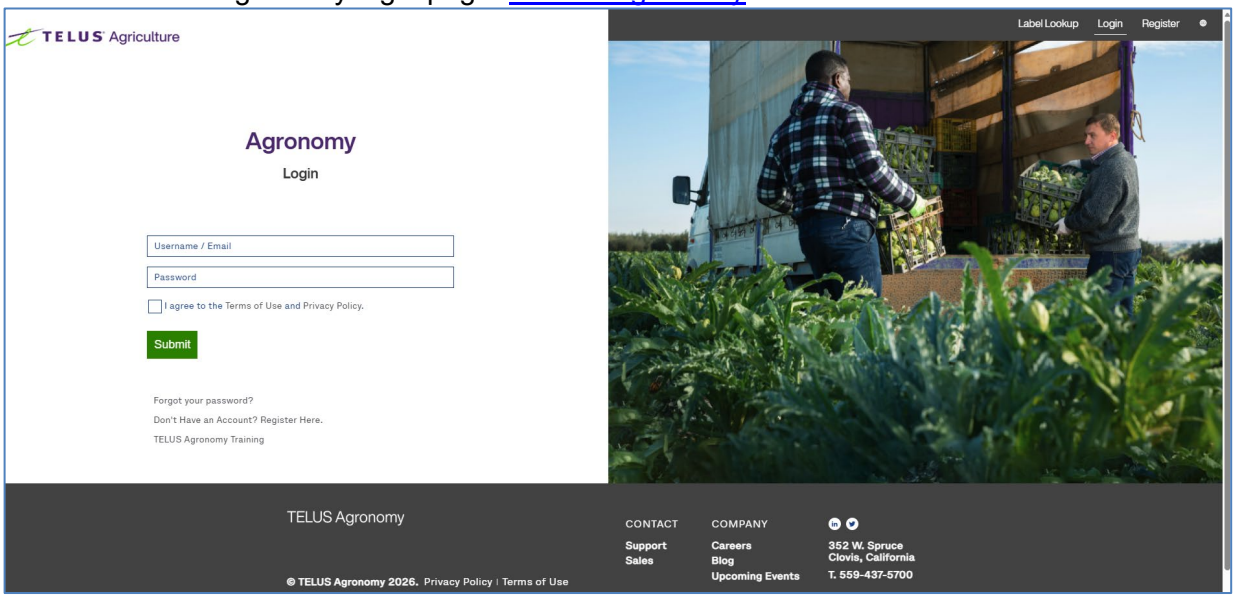

Image: 3.1 Fieldtrace 2.0 Login page

Enter your email address and password, check the box for terms and conditions. Click Submit.
Confirm that you can access your account successfully.
